## listing Description

---

**The 2024 Tesla Model X Long Range** is a luxurious, high-performance electric SUV that combines cutting-edge technology with spacious comfort and remarkable efficiency. This vehicle is the perfect choice for those seeking an eco-friendly and premium driving experience, ideal for rentals that require both style and versatility.

**Key Features and Specifications:** **Exterior Color:** Sleek Silver, a sophisticated and modern shade that complements the Model X's streamlined and futuristic design. **Engine & Performance:** Powered by Tesla's advanced all-electric drivetrain, delivering up to 670 horsepower. The Model X accelerates from 0 to 60 mph in just 3.8 seconds, providing an exhilarating yet smooth ride. **Range:** Offers up to 348 miles on a single charge, making it suitable for long trips and urban commutes alike. **Charging:** Compatible with Tesla's Supercharger network, adding up to 175 miles of range in just 15 minutes at fast-charging stations. **Interior: Seating:** Premium vegan leather upholstery with seating for up to 7 passengers. Front seats feature multi-way power adjustability, heating, and ventilation for unmatched comfort. **Infotainment System:** A 17-inch touchscreen display with Tesla's intuitive interface, offering navigation, media, climate control, and vehicle settings. Includes Apple Music, Spotify integration, and over-the-air updates for the latest features. **Climate Control:** Tri-zone automatic climate control with HEPA air filtration ensures a clean and comfortable cabin environment. **Cargo Space:** Expansive storage with a front trunk ("frunk") and foldable rear seats, offering ample space for luggage and personal items—perfect for road trips or large groups. **Safety & Driver Assistance: Driver Assistance Features:** Includes Tesla's Autopilot with Adaptive Cruise Control, Lane Keeping Assist, Emergency Braking, Blind Spot Monitoring, and a 360-degree camera system for enhanced visibility and safety. **Airbags & Protection:** Comprehensive airbag coverage, reinforced body structure, and cutting-edge collision avoidance systems ensure maximum occupant safety. **Additional Features: Suspension:** Adaptive air suspension provides a smooth and customizable ride, automatically adjusting to road conditions. **Wheels:** 20-inch alloy wheels with an aerodynamic design that enhances efficiency and style. **Lighting:** LED headlights with adaptive high-beam assist for superior visibility and a modern aesthetic. **Driving Experience: Comfort:** The Tesla Model X delivers an exceptionally quiet and serene cabin, thanks to advanced acoustic insulation and its electric powertrain. **Handling:** Agile and precise handling, with standard all-wheel drive and a low center of gravity for enhanced stability and confidence on various road types. The **2024 Tesla Model X Long Range** is perfect for anyone looking to rent a high-end electric SUV that blends performance, luxury, and sustainability. Whether you're cruising through the city, embarking on a long road trip, or enjoying a family outing, this vehicle ensures an unmatched driving experience.
